

PRAKHAR MAKHIJA

Front-End & Game Framework Developer

PROFESSIONAL SUMMARY

iGaming developer with 4+ years of experience building game frameworks and front-end tooling for production Slots titles, spanning Godot, PixiJS, and React-based tools. Skilled at leading engineering teams, optimizing load performance, and delivering frameworks for next-generation iGaming titles.

EXPERIENCE

Framework Developer – Senior

March 2026 – Present

Light & Wonder – iGaming

- ▶ Lead a team of 3 engineers responsible for building the framework powering the next generation of iGaming Slots titles
- ▶ Design and implement responsive, scalable UI components with comprehensive testing coverage
- ▶ Drive asset and performance optimizations, including asset packaging, caching strategies, and AI-assisted parallel object loading to improve game load times
- ▶ Provide day-to-day support to the team on task assignment and Jira workflow
- ▶ Conduct code reviews and technical evaluations to ensure team alignment with company goals

Framework Developer – Intermediate

August 2023 – March 2026

Light & Wonder – iGaming

- ▶ Built an externally deployed font tool in React, enabling artists to preview and adjust font styles and text directly in real games instead of Photoshop
- ▶ Developed a PixiJS-based framework layer using a model-view-controller architecture for state management, powering production iGaming Slots titles
- ▶ Created responsive UI designs that adapt across devices and screen sizes
- ▶ Collaborated with QA teams on debugging and identifying performance bottlenecks

Game Developer – Junior

May 2022 – August 2023

Light & Wonder – iGaming

- ▶ Developed gameplay features and mechanics for production iGaming Slots titles
- ▶ Collaborated with QA teams to identify and resolve technical issues
- ▶ Implemented game mechanics using proprietary frameworks
- ▶ Gained deep understanding of iGaming domain-specific requirements

EDUCATION

Algonquin College of Applied Arts and Technology

September 2019 – April 2022

Game Development – 3 Year Advanced Diploma, Ottawa, Ontario

GPA: 3.85 / 4.0 — **Graduated with Honors**

SKILLS

PROGRAMMING

TypeScript, JavaScript, C++, C#, HTML / CSS

FRONTEND

React (tooling), PixiJS, Responsive Design, Performance Optimization

GAME TECH

Godot, Unreal Engine, Unity, Shader Creation, Graphics Programming

TOOLS

Git / GitHub, AI Tools, CI/CD Pipelines

SOFT SKILLS

Problem Solving, Communication, Team Leadership, Cross-functional Collaboration
